About me

Hi, I'm Mandy Jian, a designer who focuses on the balance between user experience and beauty. I prefer the concise and graceful design style, hoping to create products that make people feel delightful.

I have liked drawing since I was little, I learned painting at an art studio for three years. In college, I studied at the Crafts and Design Department of National Taiwan University, majored in product design, learned the aesthetics of art, methods of design, 3D product drafting and how to complete craftworks.

From 2016 to 2018, I was a web visual designer at GENKI Co.Ltd, responsible for brand visual and UI design for software service, graphic design, pre-print design. In addition, I also communicated with clients to understand their needs, and co-worked with front-end engineers to design websites.

From 2018 to 2019, I was a UI designer at the user experience department of VIVOTEK inc, mainly responsible for UI design. I participated in the OBM software projects included desktop and mobile app, cloud service web, embedded software, I learned how to communicate with different teams, and improved in the details and accuracy of my design skill.

In the future, I will be a more professional designer, exerting my expertise, continually creating beautiful and practical products. This is my portfolio, hoping you will like it, thanks!

Total backpackers

2017, UI design, web

Web design for Australia Backpackers working hostel at
GENKI Co Ltd.

BACKPACKERS WORKING HOLIDAY

ABOUT TOTAL

Luxury located in the heart of the city of Krems at the entrance to the UNESCO World Heritage Site of Wachau, our family-run Hotel Unter den Linden is just a short walk from many local attractions.

During your stay, you can visit the Steiner Gate, which is a landmark in the city of Krems, and the starting point of a wonderful pedestrian zone through the historic quarter, the Art Mile, the Danube University Krems, the Danube Promenade, and the Boat Station, which is the perfect starting point for beautiful trips around the Wachau Region. All these sights can easily be reached by foot from the hotel.

Providing an individual flair to each of the 39 guest rooms, the hotel often receives requests regarding a particular room. The hotel is especially proud of its 3 suites. With a warm and cozy character, they are often in demand.

Contact us for further information or what we can offer you.

FARM WORK

We are looking for people from all over the world who are interested in working on a farm and experiencing the life. Our main focus is to find new people who are interested in learning about the farm and helping out the team. This includes helping to look after our animals, working on the farm, and helping out with the day-to-day running of the farm.

WORKING HOLIDAY

LOCATION

SYDNEY OPERA HOUSE

The Sydney Opera House is a multi-venue performing arts centre in Sydney, New South Wales, Australia. It is one of the 20th century's most famous and distinctive buildings.

Designed by Danish architect Jørn Utzon, the building was formally opened on 26 October 1973 after a gestation period of 14 years. It has been described as "an international design icon".

The government of New South Wales, led by the premier, Joseph Cahill, authorized work to begin in 1959 with Utzon directing construction.

The government's decision to build Utzon's design is often overshadowed by circumstances that followed, including cost, scheduling overruns as well as the architect's ultimate resignation.
