Work experience

UI designer
VIVOTEK inc | 2018 - 2019

Mainly responsible for GUI design. My daily work included drawing wireframe, UI spec, mockup, and icon design, etc. I participated in the OBM software projects included desktop and mobile app, cloud service web, embedded software, in collaboration with other UX/UI designers, PM, and engineers. I learned how to communicate with different teams, and improved in the details and accuracy of my design skill.

Web visual designer
GENKI Co.Ltd | 2017 - 2018

I was responsible for brand visual and UI design for software service, graphic design, pre-print design. In addition, I also communicated with clients to understand their needs, and co-worked with front-end engineers to design websites.

Education

Crafts and Design Department
National Taiwan University | 2011 - 2015

Majored in product design, learned the aesthetics of art, methods of design, 3D product drafting and how to complete craftworks.
